

## CERLAC Special Collections – Solidarity with Latin America

This material comes from the Library of the Latin American Working Group (LAWG). For each of the Latin American countries, LAWG collected solidarity materials from Canada, the United States and internationally. There are files on specific solidarity organizations - the events they organized and newspaper articles that report on these initiatives. This material is a rich resource that demonstrates how engaged Canadians were with the struggles for social justice that were taking place in the region. The support of the Churches and the Labour movement was critical to the solidarity work in Canada.
